LIBRARY COPYRIGHT
Done!

- 🙂 COPYRIGHT Use exiting references for license links as just reference's to these links. Then create references for each copyright image file and add them as the license's image.

- 🙂 COPYRIGHT Fix brainstorm copyright script so it cannot add trademark tags to brainstorms, which require copyright tags.

- 🙂 COPYRIGHT Fix new copyright script so it enters the tag field where the user needs to type the name for their new tag. Currently, it is not obvious what the user is supposed to do when they get the new copyright screen.

- 🙂 COPYRIGHT Fix DEFAULTcopyrightGroupName on all defaults layout so it is always calculated and its color is always grey.

- 🙂 COPYRIGHT Prevent user from using trademark tags as copyright.

- 🙂 COPYRIGHT Fix ND copyright's so they sort like the rest by adding order numbers to them.

- 🙂 COPYRIGHT Fix learnMenuStuffBrainstorm layout for copyright info.

- 🙂 COPYRIGHT Fix review copyright script. Look into this formula around the FIX comments:

tagCreatorLock::orderOrLock ≠ "" and tagMenus::match = "brainstorm" or
//default copyright and reference copyright layouts
tagCreatorLock::orderOrLock ≠ "" and tagMenus::match = "copyright" or
//main learn Layouts
learnCopyrightCreatorsCopyrightLock::orderOrLock ≠ "" or
tagsCopyrightsCreatorLock::orderOrLock ≠ "" or
<Table Missing>::<Field Missing> ≠ "" or
//all defaults layout
primaryNodesCopyrightsCreatorLock::orderOrLock ≠ ""

- 🙂 COPYRIGHT Fix reviewPrimaryNodeCopyright (new) script and see if it is really needed. HMMM… Might not be in use. Testing required before deleting.

- 🙂 COPYRIGHT TEST ReferenceMenuCopyright layout web button is using a different script than the EDIT layout. WHY? Fixed, and now using the same script.

- 🙂 COPYRIGHT TEST addMenu1 layout is using yet another script to open copyright URL. WHY? WHY? Fixed, and now using the same script.

- 🙂 COPYRIGHT Fix TEMP::primaryNodeIsLocked being selected when it is not locked. ANSWER: Unable to duplicate. May have been caused during testing of other scripts because paused in the middle of working and so not completing their steps. Will keep an eye out for this to reoccur.

- 🙂 COPYRIGHT Fix order of copyright tests so the user locked, default, and user

unlocked copyright tests are in the same order.

○ COPYRIGHT Fix copyright button on Report and test tag menus layouts so it
follows test-subject node rather than copyright key inserted into record.
